Dear Valued Partner:

United Solutions Inc. is committed to maintaining a high level of quality for all its products and recognizes that our Dealers and Distributors invest significant time and resources into training knowledgeable staff, educating the public about our products, and providing support services to their customers. United Solutions Inc. values our partners who support our premium brand and is committed to supporting our Resellers' efforts and maintaining the reputation of our products for quality and authenticity. We are implementing a new Authorized Reseller policy.

As the market demands that both the physical and online storefronts be available to the consumer, we at United Solutions Inc. want to partner with resellers that best represent our brand. In order to sell our products on the internet you MUST apply, be authorized directly by United Solutions, and execute an Internet Authorized Reseller Agreement.

Please send an email to brandprotection@unitedsolutions.bz to request an application to become an authorized internet seller.

United Solutions Inc. is making a considerable effort to reduce false advertising, customer confusion, and counterfeit goods. If you are a dealer that is also a distributor, it is your responsibility to educate your downline retailers. As a distributor, you will be held responsible for the actions of your retailers. This includes products being sold outside of Territory and Authorized Sales Channel and misuse of intellectual property.

As United Solutions Inc. continues to grow, we are dedicated to building strong customer relationships and cultivating a fair landscape.

Please direct any questions about this policy to: brandprotection@unitedsolutions.bz

Thank you,
United Solutions Inc.
